UNIVERSAL SERVICE, AND THE NON-) ADMINISTRATIVE
TRAFFIC SENSITIVE ACCESS RATE) CASE NO. 355

O R D E R

On its own motion, the Commission reopens this case for the limited purpose of reconsidering the monitoring requirements for incumbent local exchange carriers ("ILECs") contained in its September 26, 1996 Order.¹

Specifically, the requirement to file year-end access line and traffic information on January 31 will be satisfied by the information already included in the annual report Form T which is due no later than March 31 of the following year. Also, the description of the areas served and maps of the service territory need only be filed when changes occur. All other reporting requirements remain in effect.

Competitive local exchange carriers providing local exchange service in Kentucky must submit the information required by the September 26, 1996 Order on January 31 and July 31 as provided in the Order.

IT IS THEREFORE ORDERED that:

1. The January 31 filing date for ILEC access line and traffic data shall be changed to March 31.

¹ September 26, 1996 Order at 50.

2. The description of areas served and maps of service territories shall only be required of ILECs in the event of changes.

3. All companies other than ILECs providing local exchange service or planning to offer local exchange service in Kentucky shall file a description of areas served and maps of service territories at the time it applies for authority and at any time its local service territory changes.

4. All companies providing local exchange service in Kentucky, except ILECs shall provide all other information required in the September 26, 1996 Order on January 31 and July 31.

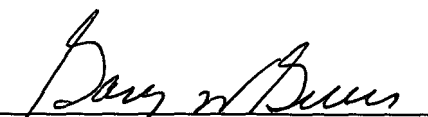

5. A copy of this Order shall be served on all local exchange carriers.
